

# SUPPLEMENT: POST COVID-19 BRANCH GUIDE

## CURBSIDE BANKING

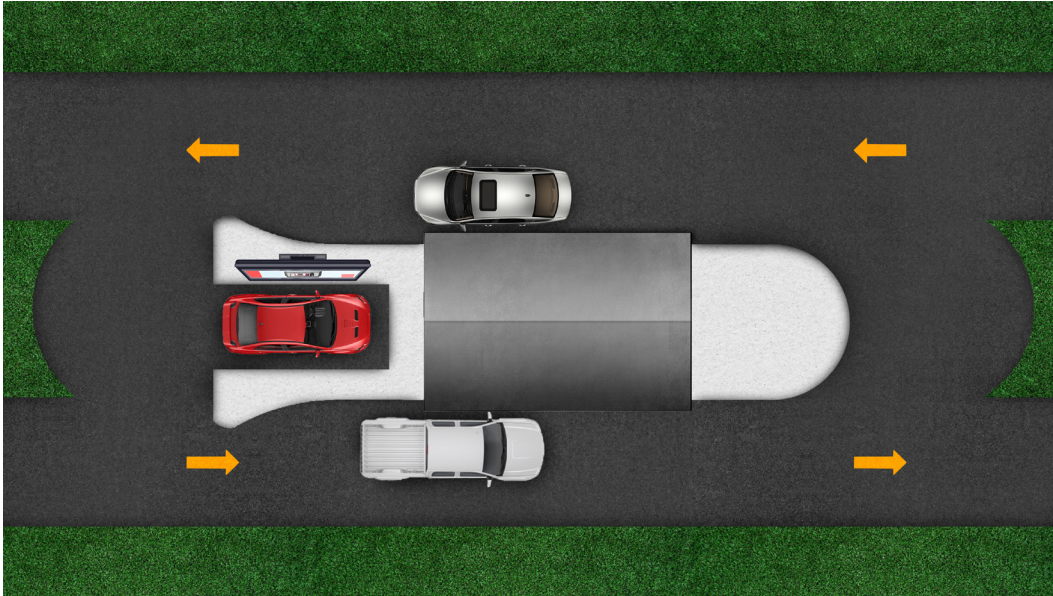

As the dust settles on a post COVID-19 world and the new normal in banking begins to take shape, the acceleration of innovation is inevitable. While the trends prior to the pandemic have been accelerated, innovation must fill the needs created by a contactless world.

The dawn of “Curbside Banking” is here. By blending elements of the traditional branch drive-thru, expanding the idea of what a Micro Branch is, and adopting best in class practices from fast food innovators like Sonic Drive-In and retail giant, Starbucks, we are unveiling a new way to deploy “contactless banking” at a branch environment. With the right vision and technology deployment, you can provide your clients with the best solutions to fit their needs.

# Drive-Thru/Drive-Up Micro Branch

Managed by one or two employees, this free standing Micro Branch allows for dual-lane drive-thru windows and a single curbside banking/parking space. In all three instances, the customer does not leave their car.

# FREESTANDING BRANCH CURBSIDE CONVERSION

Utilize unused parking spaces by converting them into Curbside Banking spots. ITM's are a great option for those to drive-up, speak to you via two-way video, and even allow you to complete certain transactions by their vehicle.
